CAREER OBJECTIVE

Passionate fresher with hands-on experience in AI, Machine Learning, and Deep Learning using Python. Known for problem-solving, communication, and leadership skills, with high adaptability to new technologies and roles. Focused on building scalable, data-driven AI solutions.

SKILLS

- **Programming Languages:** Python, C (Basic), Java (Basic)
- **Web Technologies:** HTML, CSS, JavaScript, Flask
- **Database Systems:** MySQL, MongoDB
- **Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow/Keras, ReactJS
- **Tools:** VS Code, Git, GitHub, Jupyter Notebook
- **Soft Skills:** Problem-solving, Team player, Adaptability

EDUCATION

B. Tech Artificial Intelligence and Data Science	2022 - 2026
Erode Sengunthar Engineering College, Erode	
CGPA: 8.4	
Government Higher Secondary School, Erode	2021 - 2022
Grade: 88%	

INTERNSHIP EXPERIENCE

AI/ML Intern - CubeAI Solutions	Sep 2025 – Jan 2026
• Collaborated on developing and training machine learning models to solve real-world problems. • Built and maintained real-time web applications using modern technologies, ensuring responsive design and efficient client-server communication. • Gained hands-on experience with Python, data science workflows, and n8n automation agents for building intelligent, automated pipelines.	

PROJECTS

- **Terms & Conditions Summarizer**
 - **Tech Stack** - Python, FastAPI, Hugging Face Transformers (BART), Groq API (Llama 4)
 - Built an AI-powered web application to summarize complex Terms & Conditions into concise insights and risk-based analysis.
 - Used transformer models (BART) for accurate summarization with 90% accuracy.
 - Developed a FastAPI backend to handle real-time requests, including text chunking and structured JSON responses for scalable processing.
- **AI Stock Price Predictor**
 - **Tech Stack** - Python, TensorFlow/Keras, Scikit-learn, Flask, Pandas, NumPy, yFinance, Plotly
 - Developed an AI-powered stock price prediction application using LSTM neural networks, TensorFlow/Keras, and historical market data for accurate time-series forecasting.
 - Implemented an end-to-end machine learning pipeline including data preprocessing, feature engineering, model training, evaluation, and Flask-based deployment with visualizations.

CERTIFICATIONS

Python Programming Certification - Guvi	May 2025
Python and Flask Framework - Udemy	Sep 2025
GenAI Powered Data Analytics Job Simulation - Forage	Oct 2025
